

ALUMINUM FOIL TAPE

#AHS50

DESCRIPTION

With aluminum foil as the substrate and high-quality pressure-sensitive adhesive, the aluminum foil tape has great characteristics such as good viscosity, strong adhesion, anti-aging, etc. It also has improved thermal insulation. It is waterproof, oil-proof, and high temperature resistant.

APPLICATIONS

Applicable to smooth and irregular surfaces, commonly used for sealing hot and cold air ducts, pipe sealing, temporary repair of metal surfaces, copper pipe fixing, etc.
